TESTIMONIALS

“I have learnt so much from Kathleen about my vocal abilities, breathing and the way I perform. I can really feel the muscles in my abdominal area and the ribs being used. I love our sessions.”

KERYA, Tertiary student

“In the past, my singing training has been a hit and miss affair and there have been times when I felt like I'd hit a road block, but Kathleen's knowledge and guidance is now taking me in the right direction. We've started to resolve technical issues, I have a better understanding of my personal singing needs and I now have a wider repertoire.”

LISBETH, Senior nurse

“I have played drums in a band for years and recently needed to step up and do some singing. I've never had singing lessons or sung in public, but after an introductory lesson and then a block of lessons, I felt I was in good hands with Kathleen. While I know there is more to do, I've grown as a singer and my spoken voice has also improved.”
